

# **Beginning Knitting**

## Supply List

February 7, 2012

Davidson, OK

Never learned how to knit? This project is for you. Many knitting projects require the need to know two types of knitting stitches, 'knit' and 'purl'. This project only requires that you learn the 'knit' stitch and is ideal for those that wish to begin to learn how to knit.

No. 14 -17 knitting needles (short or long ones, I prefer the short one for scarves)

1 ball of 4-ply yarn

1 ball of novelty yarn such as eyelash, fun fur, etc.

Color of your choice, working on these at night, I'd choose a light color. Black is hard to work at night.

Scissors
